Subject: Title IX: What You Need to Know
Date: Friday, January 21, 2022 4:07:00 PM

Greetings Bobcats,

Title IX is the federal law that prohibits sexual harassment, sexual assault, dating or domestic violence or stalking on college campuses or at college-sponsored events. To help increase awareness about and prevents these incidents, COCC has created a 10-minute [Student Title IX Training](#) covering the following topics:

- Definitions of sexual harassment, sexual assault, dating or domestic violence or stalking
- How to report an incident
- The investigation process, including confidentiality
- Resources for support

COCC takes these situations very seriously and is here to help. If you are a victim of or witness anything that might be a Title IX incident, please report the incident immediately by submitting an [online report](#) or contacting me using the information below. A COCC staff member trained to help with such incidents will reach out as soon as possible to talk with you about potential next steps.

Be safe, Bobcats.

Alicia
