The Award is administered and awarded by the College Affairs Committee.

Hi Forrest,

I would like to nominate Doug Nelson, Math Faculty for the Queary Award.

Aside from being a positive and profound mathematical force on our students, Doug Nelson carries a lot of water for the Education Empire around here too. The email copied below, where his work on Title III with others is summarized and he is then listed as a key contact, demonstrates the constant effort he puts behind-the-scenes for our students. Similar work includes his effort on the Math "SMART" Lab, where Doug revolutionized (at least for a while) the way Math was taught at this institution. He has helped in numerous other disciplines in his collegial, Learning community oriented way. My Speech and Argumentation classes both include plenty of math, thanks to his good inspiration and "can-do" attitude.

Thank you for considering this nomination for the Bart Queary Award!

Regards,

Jon
